

TCS B.Tech Placement Prep 2025-2026

Your Guide to Cracking the TCS NQT

Prepared by AI Mentor

Why TCS?

- **Global Leader:** One of the world's largest IT services brands.
- **Massive Opportunities:** Hires across diverse roles (Ninja, Digital, Prime).
- **Job Security & Growth:** Known for stable careers and continuous learning platforms (TCS Elevate).
- **Tech Exposure:** Working with Fortune 500 clients across all modern tech stacks.

Hiring Process

1. TCS NQT (Written Test):

- Foundation Section (Aptitude, Reasoning, Verbal)
- Advanced Section (Advanced Coding & Logic)

2. Technical Interview:

- Core CS subjects (DBMS, OOPs, OS) and Project discussions.

3. HR / Managerial Interview:

- Cultural fit, adaptability, and background checks.

Technical Stack

- **Languages:** Java, Python, C++, C#
- **Frameworks/Web:** React, Angular, Spring Boot
- **Cloud/Data:** SQL, Basic AWS/Azure, MongoDB
- **Key Focus:** Strong Data Structures and Algorithms (DSA) basics.

Eligibility

- **CGPA Cutoff:** Minimum 60% or 6.0 CGPA throughout X, XII, and B.Tech.
- **Branches:** Open to all B.Tech branches for core IT roles.
- **Backlogs:** Max 1 active backlog allowed during assessment.
- **Packages:**
 - Ninja: ~₹3.36 LPA
 - Digital: ~₹7.0 LPA
 - Prime: ~₹9.0 - ₹11.5 LPA

Recent News

- **Hiring Target:** Expected to hire around 40,000 freshers for the FY25/26 batches.
- **GenAI Push:** Massive internal drive to train employees on Generative AI.
- **RTO Policy:** 100% Return to Office mandated; variable pay tied to attendance.

5 Prep Tips

1. **Master NQT Pattern:** Practice time-bound aptitude tests.
2. **Core CS is King:** Revise OOPs, DBMS, OS, and CN thoroughly.
3. **Code Daily:** Practice arrays, strings, and basic math logic in Java/C++/Python.
4. **Know Your Resume:** Be ready to defend every bullet point and project.
5. **Be Adaptable:** Show willingness to learn new technologies and relocate.

Start Preparing This Week!

Call to Action:

- Register on the TCS NextStep Portal.
- Take at least one full-length NQT Mock Test by this Sunday.
- Review your primary programming language basics.

Let's get that offer!
